**Dimensions**

**Schematic diagram**

All dimensions without tolerances are for reference only. In the interest of improved design, performance and cost effectiveness, the right to make changes in these specifications without notice is reserved. Product markings may not be exactly as the ordering codes. Errors and omissions excepted.

**Time/current characteristics**

The time/current characteristic depends on the ambient temperature. In order to eliminate nuisance tripping, please multiply the current rating by a derating factor (see chapter Technical Information)

ambient temperature [°C]	-20	-10	0	+10	+25	+35	+40	+50	+60
Temperature factor	0,71	0,77	0,83	0,91	1	1,06	1,18	1,37	1,47
